

Data Scarcity: The Biggest Challenge faced by AI

Providing AI-Ready Data at Scale for Sovereign Operations

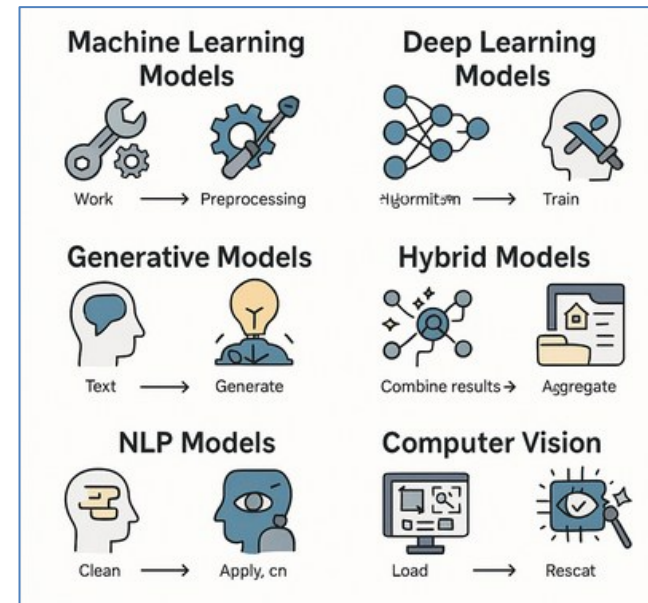

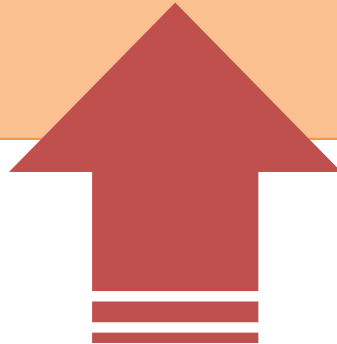

ROI: “Claude & Friends”, Hungry for AI-Ready Data

McKinsey: Trillions of USD are committed to AI.

Huge investments into AI Data Centers (DCs) and AI Hardware

No Data, No AI.
DataVaccinator provides AI-Ready Data at Scale, on Demand, in and across Organizations and Jurisdictions, regionally and globally.

Huge investments into AI Software (AI Models, Tools)

“Dealing with data scarcity is the biggest challenge faced by Artificial Intelligence (AI)” 

Enabling AI-Ready Data Ecosystems in any Sector

By “vaccinating data against abuse”, DataVaccinator (DV) software and solutions protect sensitive data, enable secure collaboration and ensure Data Sovereignty. DV products rely on its unique patented technologies, enabling (supra-)national Data Ecosystems and leveraging network effects through „data roaming“ across Data Ecosystems. As partner in major initiatives, DV provides guidance on cyber security, governance, compliance, setup and operation of AI-Ready Data Networks.

Background and Expertise:

- Deep Tech Know-how in Secure Collaboration and Communication
- Data Ecosystems: Healthcare in EU/MENA, Cyber Security (ASEAN), Belt&Road (Asia), Logistics (Air, Sea, Road), Finance, Public Sector
- WEF Security Group, Belfer Security Center (Harvard, JFK)
